

Photovoltaic Module

Polycrystalline60

KEY FEATURES

High module efficiency through superior manufacturing technology

No power loss thanks to improved temperature co-efficient caused by 5 busbar solar cell

Strictly control the micro-crack of solar cells and the other non visible defect of internal modules

Module can bear snow loads up to 5400Pa and wind loads up to 2400Pa

Manufactured according to and certified international I Quality and Environment Management System

Using advanced low reflection and high light transmission glass and cell sheet surface cutting technology, in the weak light environment can also play a good performance.
